SOLUTION HIGHLIGHT

▶ SECURITY — ANTI-VIRUS

Security is an everyday concern for businesses of all sizes. We recommend Computer Associates eTrust™.

eTrust™ Antivirus is an award-winning, comprehensive anti-viral defense solution that covers all points of your corporate environment from the perimeter to the PDA. Its scalable and sophisticated management capabilities suit your enterprise, whether large and complex or small to midsized.

CA has received the most Virus Bulletin 100% awards for detecting 100% of "in-the-wild" viruses of any antivirus vendor. eTrust™ Antivirus is also certified by ICSA Labs and West Coast Labs.

With lifetime virus updates and inexpensive maintenance options for new users, current users, and competitive product users, it's a sure winner both in savings and quality. Take the CA challenge today and contact us for a quote. We're confident that not only the upgrade cost, but also the quality will make you a believer.

PRODUCT HIGHLIGHT

▶ MICROSOFT 2003 SERVERS

Windows Server 2003 includes all the functionality customers need today from a Windows server operating system to do more with less, such as security, reliability, availability, and scalability. In addition, Microsoft has improved and extended the Windows server operating systems to incorporate the benefits of Microsoft® .NET for connecting information, people, systems, and devices.

Quickly becoming the #1 server for small businesses. Microsoft™ Windows® Small Business Server 2003 can help you automatically protect your business information, get 20% more done every day, reach your customers and serve them better, and quickly set up a Windows Server network designed for small businesses.

ULTRIX Corporation sells Intel™ Servers with Microsoft™ 2003 Server software loaded to meet your custom business needs.
